Professional Summary

Passionate MERN Stack and Full Stack Developer with hands-on experience building full stack web applications using React.js, Node.js, Express.js, and MongoDB, along with additional proficiency in Next.js, TypeScript, and PostgreSQL. Complemented by 1 year of professional experience at Accenture in Quality Assurance, providing a solid understanding of software testing, SDLC, and enterprise application quality. A quick learner and strong problem solver who thrives in collaborative Agile environments, with a proven ability to adapt quickly to new technologies and challenges while building scalable, user-focused web applications.

Technical Skills

Frontend: HTML5, CSS3, JavaScript, TypeScript, React.js, Next.js, Tailwind CSS
Backend: Node.js, Express.js, REST APIs, WebSockets, Zod, Middleware
Databases: MongoDB, PostgreSQL, SQL, Prisma ORM, Mongoose
Tools & Platforms: Git, GitHub, Linux, Docker, AWS (Basic), Agile/SDLC
Programming & Data: Python, Pandas, Flask
Core Stack: MERN Stack (MongoDB, Express.js, React.js, Node.js), Full Stack Web Development

Professional Experience

Quality Assurance Analyst 2024 – Present
Accenture, Nagpur, Maharashtra

- Performed functional, integration, and regression testing for enterprise applications at Accenture, a leading global professional services company with expertise in digital, cloud, and security.
- Conducted defect tracking and root cause analysis while collaborating closely with developers in Agile teams to resolve issues efficiently.
- Gained strong exposure to Software Development Life Cycle (SDLC) processes and production environments, strengthening software quality assurance practices applicable to full stack development.

Projects

Blog Posts Application 2026
Personal Project | React.js, JavaScript, HTML, CSS

- Developed a responsive full stack blog application using React.js with reusable, component-based architecture.
- Implemented complete CRUD (Create, Read, Update, Delete) operations for managing blog posts, following React best practices for scalable frontend development.

Consultancy Website June 2024 – Dec 2024
Samsun Consultancy | PHP, MySQL, HTML, CSS, JavaScript

- Developed a full stack consultancy website featuring multiple user interfaces along with a dedicated admin dashboard for backend content management, built using PHP queries.
- Designed and implemented responsive web pages with dynamic content, delivering a seamless user experience across desktop and mobile devices.

Mobile Website Clone
Personal Project | Python, Flask, SQL

- Built a full stack clone of a mobile website using Python Flask for backend logic and routing.
- Integrated SQL queries to connect the application to a relational database for dynamic data handling.

Blood Donation Platform
College Project | PHP, SQL

- Developed a full stack blood donation web application with a strong focus on backend functionality using PHP.
- Built three core modules: recipient request form and data management, donor data submission, and a donation camp table displaying schedules with date and time.

Education

Bachelor of Computer Applications (BCA) June 2024
GGDSD College, Chandigarh

- Achieved an academic score of 80%.
- Distinguished member of the College's Social Clubs; actively involved with NGOs and hosted a social event on campus.
